Sushant Gupta

Bareilly, Uttar Pradesh +91 9919361111 sushant.career1@gmail.com

LinkedIn: - https://www.linkedin.com/in/sushant-gupta339/ Github:- https://github.com/Sushantg339

Education

- Currently pursuing **Bachelor of Technology** at Invertis University (2023-2027), with a current CGPA of **8**.5 .
- Completed **Class 12th (CBSE Board)** in 2022 with a score of **90.00%**.
- Completed **Class 10th (CBSE Board)** in 2020 with a score of **91.40%**.

Skills

- **Programming**: Java (Intermediate), Python (Intermediate), C++, JavaScript, TypeScript, HTML/CSS
- **Frontend** :- React.js, Next.js, GSAP, Framer Motion, Tailwind CSS
- **Backend** :- Node.js, Express, REST APIs, Websockets, Socket.io, Razorpay Payment Integration
- **Authentication** :- Cookies-based Authentication, bcrypt, NextAuth
- **ORMs** :- Prisma
- **Databases** :- PostgreSQL, MongoDB
- **Tools & IDEs** :- Git, GitHub, Visual Studio Code, Postman, Docker

Projects

Car Rental System Backend | [GitHub] **Jan 2026**

Node.js, Express, TypeScript, PostgreSQL, JWT, ZOD, Bcrypt *Individual Project*

- Architected a **production-grade REST API** with **PostgreSQL-backed data modeling**, ensuring strict non-null constraints, relational integrity, and scalable schema design.
- Implemented **secure JWT authentication and authorization** with middleware-based request validation, protected routes, and **ownership enforcement** for all booking operations.
- Built **business-rule-driven booking workflows**, including dynamic pricing, status transitions (booked, completed, cancelled), and **consistent error handling** aligned with clean API standards.

AI Powered Real Time Chat App | [GitHub] **Aug 2025**

Node.js, React.js, Tailwind CSS, Socket.IO, Node.js, Gemini AI API, Pinecone, RAG *Individual Project*

- Designed and implemented a **Retrieval-Augmented Generation (RAG) pipeline** using **Pinecone vector database**, enabling context-aware and accurate AI responses from custom knowledge sources.
- Built a **real-time AI chat system** using **WebSockets (Socket.IO)** for low-latency, bidirectional communication, supporting seamless multi-message streaming and auto-scroll UX.
- Architected a **scalable full-stack application** with modular React components and Node.js backend, integrating **Gemini AI APIs** with vector search for efficient semantic retrieval and response generation.

Youthiapa- Reimagine | [Live Link] **July 2025**

React.js, React-Hook-Form, Context API, GSAP, ReactBits *Individual Project*

- Reimagined and built a **modern, responsive e-commerce UI** with reusable React components, ensuring consistency across devices and screen sizes.
- Implemented **robust authentication forms** using **React Hook Form**, improving validation, form performance, and developer maintainability.
- Managed **global application state using Context API** and optimized load times with **lazy loading and code splitting**, enhancing overall user experience and performance.

Hackathon & Achievements

- **Techathon 2024** — Secured First Runner-Up as Team Lead (led a team of 5).
- **Sheryians Coding School Hackathon** — Participated in a national-level hackathon, collaborating on problem- solving and solution design.
- **LeetCode** — Solved 140+ algorithmic problems, strengthening DSA and problem-solving skills.

Certifications

- **Job Ready AI Powered Cohort** — Sheryians Coding School *(Jul 2025)*
- **Python 101 for Data Science** — IBM *(Feb 2025)*
- **Artificial Intelligence Foundations: Machine Learning** — LinkedIn Learning *(Nov 2024)*
- **Introduction to Artificial Intelligence** — LinkedIn Learning *(Oct 2024)*
